## LAND, STOCK AND CROP

Jesse Dillinger has sold his Boyle county farm of 120 acres to Mr. Shepherd, of Stearns, at \$90.

George Coffey has sold his farm of 50 acres near Bowen to George A. Walden, of Danville, at a satisfactory price.

Will English, of Paris, made the remarkable record of cutting 5,027 sticks of tobacco in 38 hours, for which he received \$50.27, or at the rate of \$1.32 per hour.

The "work or fight" order will be applied to women at Pine Bluff, Ark. Negro women there are refusing to perform any labor, living on allotments paid them through draft relatives, thereby causing a serious shortage of cotton pickers.

J. L. Hutchins bought of I. S. Tevis 60 cattle averaging 1,121 pounds, at 13 1/2 c. He bought from Thursday until Saturday of last week six car-loads of cattle and hogs of various parties. For the cattle he paid from 10 to 13 1/2 c. and for the hogs 18 1/2 to 19 c.

Josh Wilson had at Lancaster Monday a fine pair of three-year-old mare mules for which he had refused \$550. He asked \$600 but had not sold them at a late hour. Ed Scott, of the Goshen section, also had a high-class pair of three-year-old mare mules for which he refused some fancy prices.

Harry D. Frye has sold 700 bushels of the seed wheat advertised in this paper and says he wants his advertisement stopped. "Your paper sold all I can spare. I have had answers to the advertisement from many sections and I am convinced that the I. J. is a good advertising medium," he said to a representative at Lancaster court Monday. He received \$2.50 per bushel.

## A BRILLIANT REMARK

"We are going to take Augustus Owsley Stanley's hide and hang it to a pole." This ornate sentence is from that favorite of the republican party, Hon. Edwin P. Morrow, and when it was delivered to a Louisville audience, we are told that the applause that greeted it lasted fully three minutes, thereby indicating the character of the crowd that could so fully appreciate such brilliant and very coarse oratory. Mr. Morrow does not seem to learn by experience. He tried to hang that hide himself once and ingloriously failed, though he made a better showing than Bruner or any other republican will ever make again. Such a speech is not calculated to raise Mr. Morrow in the estimation of genteel people if it does create a furore with a certain class of republicans.

## LOVES HER COWS AND CHICKENS AGAIN

"I have had stomach trouble for twenty years and for the past year have eaten nothing but stale bread and drank hot water. Was too weak to do any kind of work. Six weeks ago I took the first dose of Mayr's Wonderful Remedy and am now doing all my housework besides looking after my chickens and milking two cows every day. Mine has been a wonderful recovery." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. The Lincoln Pharmacy; The Penny Drug Store.

It is all free and you are cordially invited to see the exhibits and hear the speeches. Remember the date—Thursday week, Oct. 3rd.

## Chamberlain's Cough Remedy

This is not only one of the best and most efficient medicines for coughs, colds, croup and whooping cough, but is also pleasant to take, which is important when a medicine must be given to young children. Chamberlain's Cough Remedy has been in use for many years and has met with much favor wherever its good qualities have become known. Many mothers have given it their unqualified endorsement. Wm. Scruby, Chillicothe, Mo., writes, "I have raised three children, have always used Chamberlain's Cough Remedy and found it to be the best for coughs, colds and croup. It is pleasant to take. Both adults and children like it. My wife and I have always felt safe from croup with it in the house." Chamberlain's Cough Remedy contains no opium or other narcotic.

Dr. Edward Alcorn announces the marriage of his daughter, Miss Ada Givens Alcorn to Mr. Alexander Edwin Hubbell. Alfred Alcorn Higgins, of Louisville, and the only attendant was little Miss Ann Catherine Spalding, the niece of the bride. Mrs. Hubbell is a member of a widely-known Lincoln county family and is loved and admired by a large circle of friends. Mr. Hubbell is a prominent business man of Bay City, Mich. He was accompanied to Kentucky by his brother and sister-in-law, Mr. Emory Hubbell and Mrs. Hubbell, of Saginaw, Mich., and his sister, Miss Janet Hubbell, of Milford, Mich. Immediately after the ceremony which was witnessed by the close relatives of Mr. and Mrs. Hubbell, they left for a month's visit to various eastern cities. After October 20th they will be at home in Bay City.

## GEO. OWENS LOSES MOTHER

Mrs. Katherine Owens, better known as "Aunt Katie," of the Sayers neighborhood, in Rockcastle, died Sunday morning at an early hour of the infirmities incident to old age, she being about 80 years old. She had lived most of her life in Rockcastle, and most, if not all of her married life on the farm, and probably in the house in which she died. She leaves to mourn for her six children: R. N. Owens, of Salem, Ind.; James Owens, of Brodhead; William Owens, Jr., living near the home place; George Owens, manager of the opera house at this place; Mrs. William Cable and Mrs. Ben Purcell, of Rockcastle, besides a host of grandchildren. Her husband, William Owens, preceded her to the grave a number of years ago and her remains were laid beside his in the family burying ground Monday afternoon. W. knew "Aunt Katie" from early childhood and many be the pleasant visits made to her house and in later years made it a point to pay her a visit each time we went back to our home. She united with the Christian church some 35 years ago. She was kind to every one always ready to help in times of trouble. She was very fond of her children and delighted in visiting them. The best we know to say of "Aunt Katie" is she was a dear old-fashioned lady. J. J. P.

## NO UNNECESSARY BUILDING NOW

The Priorities division of the War Industries Board has notified the Kentucky Council of Defense that all unnecessary building and repairing in the country must be deferred until the close of the war. There are, however, a few exceptions to this order, which will be explained to anyone interested, by applying to the Lincoln County Council of Defense. All who are contemplating the erection of buildings of any description will have to make application to the Kentucky Council of Defense through the county council, stating the kind of building to be constructed, the necessity for the building, the quantity of each of the several kinds of materials to be used and the cost of the building. The application will have to be made under oath. The Lincoln County Council of Defense is composed of the following men: Dr. E. J. Brown, chairman, Stanford; B. W. Givens, Hubbell; W. G. Gooch, Stanford; R. Y. Ballard, Waynesburg; D. R. Adams, Highland; John B. Dinwiddie, Moreland; J. M. Rankin, Stanford; H. G. Skiles, Crab Orchard, and J. A. Allen, Stanford; T. W. Pennington, secretary, Stanford.

Persons who are constructing buildings of any kind in the county are requested to notify one of the above named men who will take the necessary steps to get permits for the completion of the same. Please remember that this nation's business—your business and our business—is war, and all other considerations must be subordinated to the purpose of winning the war.

## HIS SHIP TORPEDOED

Mr. J. H. Hill is in receipt of a letter from his son, Bailey Hill, in which he tells of the torpedoing of the U. S. S. Orissee on June 27th. He was on the ship and it sank in 32 minutes, seven of those aboard losing their lives. Young Hill was one of the many who took advantage of the life boats, and while they were saved, they floated around in mid-ocean for 48 hours without eat or drink. They were finally picked up by a boat bound for Sydney, Australia, and later on came to New York, from which place the letter was written. Hill has asked for a transfer from the navy to the army, desiring to see and take part in some real fighting. He winds up an interesting letter as follows: "I have two Liberty Bonds, paid for, and am going to buy another when the next series are offered."

## ADDITIONAL EDITORIAL

Dr. Ben L. Bruner made a very clever speech to a reasonably good crowd at the court-house Saturday afternoon, after a handsome introduction by Dr. R. L. Davison. The nominee for Senator declared that his patriotism was of the right sort and his eulogy of President Wilson would have been creditable to a man who had helped place him where he is. He claims to be dryer even than Senator Beckham and is hotter for equal suffrage than the Courier-Journal since Editor Bingham took charge. He claims that his opponent, Gov. Stanley is wet and that he is the candidate of the whisky and beer trusts, who are responsible for his being the nominee of the democratic party for U. S. Senator. He is not at all pleased with the method by which Gov. Stanley got his nomination, notwithstanding the fact that the assistant attorney general of the State said that it was the only fair way to nominate Senator James' successor. He claims to think that the Stanley administration has been a failure, and having failed as governor he would surely fail as Senator. In fine the genial doctor admitted that he was about the only Senatorial timber just now and that to fail to elect him would be a calamity from which Kentucky could never divorce herself. Dr. Bruner was called upon by many of our business men and others and was extended many courtesies here. They wanted to make feel good in a good town, but he must not get it into his head that all who gave him a hearty handshake will support him in November. If he does, he will do well to run second in the race in which there will be only two starters.

In opening the campaign for the republicans at Louisville last Friday night, Edwin P. Morrow said: "This is the first time I have had the opportunity of addressing a republican Louisville. I know it is a republican Louisville because the atmosphere is different." We take it that the people of Kentucky will not at once jump to the conclusion that Mr. Morrow is entitled to any special credit for making the discovery that the atmospheric conditions of the Falls City had changed. There is always an effervescent "style" of atmosphere in an audience composed of "niggers."

Col. W. P. Walton, of Lexington, has been chosen chairman of the public bureau for the democratic campaign committee and is in charge at democratic headquarters at the Seelbach in Louisville. That Col. Walton will fill the bill admirably, none who know the well-known newspaper man and splendid democrat will for an instant doubt. His strong articles are already appearing in the various democratic newspapers of the State as those who know the earmarks of the forceful writer can easily discern.

## THE LATEST WAR NEWS

The Turkish army in Palestine is virtually annihilated. The allied forces already have captured 25,000 of the enemy and 260 guns and the fleeing Ottoman forces are being harried by the victorious army under Gen. Allenby. To further shatter the morale of the Turk, allied airmen have made a number of successful bombing raids on Constantinople. The Germans behind the Hindenburg line in the St. Mihiel sector were feverishly active Saturday moving large troop trains and realigning their men. It is not believed that this presages an attack from the huns, but rather fear on the part of the enemy that Pershing's men will deliver another blow at their lines.

Midway between St. Quentin and Cambrai the army of Gen. Haig has made a further advance, taking a number of prisoners. Strong opposition on the part of the enemy was met at every move. The British now hold the hills dominating this important center, while the French to the south are moving forward steadily.

Maj. Gen. Sir Frederick B. Maurice, the British military critic, says that now that the Allies have the huns "going," they must keep up pressure until "Gen. Winter" intervenes. The enemy, he says, must be given no time to get his wind, and to insure this, men must be supplied regularly and bountifully.

The disclosure that Lenine and Trotsky sold out to Germany were branded as forgeries by a Finnish official in New York. He declared the documents were gotten up to injure Trotsky. Mr. Sisson, who brought the documents to the United States, denied the statement, and George Creel declared the authenticity of the papers could not be questioned.

Gen. March, talking on the war situation, says 1,750,000 Americans are now overseas. Reports to the War Department, he continued, tell of encouraging results on all battlefronts, and it is estimated German losses this summer have been 200,000 in prisoners alone.

## SWINEBROAD'S BIG SALES

Col. G. B. Swinebroad, the Lancaster "sale wizard," made several other sales last week than the excellent one he made for Mr. James H. Baughman. He sold for A. P. Sloan his farm in the Brvantsville section to W. E. Moss, of Lancaster, at \$120.50. The place contains 222 acres. For Mr. Moore he sold his farm near the Sloan place to William Glass for \$105 per acre. He sold for R. L. Butron his 190-acre farm six miles northeast of Lancaster, at \$193.50. These sales are all considered extra good ones and the gentlemen who engaged the colonel to dispose of their farms are more than pleased with the manner in which he conducted the sales and the good prices he realized.

## MISS BESSIE MOORE PRINCIPAL

The calling to the colors of Prof. R. E. Little, of Harlan county, who had engaged to take charge of the Waynesburg Graded and High School, and who had begun his duties in the South End capital, gave Miss Bessie Moore, of this city, an excellent position, she having been chosen to succeed Prof. Little, and she began her work Monday morning. Miss Moore has had considerable experience in the school room and the Waynesburg people are to be congratulated on securing her services at this late day. Prof. Little had greatly impressed the patrons and pupils of the Waynesburg school in the short while he was superintendent and they gave him up with sincere regret.

### DEMOCRACY GLORIOUSLY REUNITED

That was a grand and glorious occasion for a reunited Democracy when Senator Beckham and Gov. Stanley spoke from the same platform in the capital of the fine old county of Graves to an audience which far out-reached the sound of their voices. It was a real love feast and when the senior Senator said that old animosities had been healed and plead for the election of Gov. Stanley to the United States Senate, the applause could almost be heard over the Tennessee line. The senator's speech was worthy of him and the splendid occasion. He told of the great work being done at Washington and of the necessity of sending a successor to the lamented James who will stand by the President and give him the aid so important in his effort to make the world fit to live in. The senator raised himself in the estimation of every loyal democrat and brought friend and foe in happy reunion. He read a letter from President Wilson expressing the importance of electing a man in Senator James' place, who would carry on the splendid work he was doing, and upon whom he could always rely for sympathy and support. This letter will have a telling effect and will remove all fears that the doubting Thomases may have felt as to the triumphant election of the man, so fitted by capacity and experience, to give the President the most effective support in the greatest task that ever befell a man.

When Gov. Stanley arose to speak, the deafening applause and cheers that greeted him showed that the senator's appeal had fallen on willing ears and that the governor is the pride of the unconquerable democracy of the "Pennyville." The greeting spurred him to his best effort and his burning words sent determination and conviction to the minds of his magnificent audience. He very ably answered the so-called arguments of his republican opponent and his "me toos" as to his veto of the bill to prohibit the teaching of German in our tax supported schools. He said he did it because it was right and because he had conferred with the authorities at Washington, who agreed that now more than ever we should know the German language to follow up the economic evolution and development of the German nation and watch the manifestations of her activities. We are fighting the Germans, not their language, which is being taught in the schools of France, Italy and England.

He answered the charges of Dr. Bruner so as to make a monkey of that clever but misguided gentleman and said that the record would show that he had pardoned more of the doctor's political friends than he had of democrats and defied the intimation that he had used the pardoning power for political purposes. He urged his hearers to forget everything but the duty they now owe to the great man at Washington by backing him up with supporters that can always be depended upon. The governor was in fine fettle and never spoke more eloquently or convincingly. Both speeches are published in the Louisville democratic papers in full and must be read to be thoroughly appreciated.

There is nothing now so certain in the future as that Gov. Stanley will be elected and if every democrat will do his duty, by such a majority as will show how solidly Kentuckians approve of the war principles of the President.

"Although weather conditions were extremely disagreeable here, fully 300 persons came to hear the republican candidate for U. S. Senator," says the special correspondent sent to Stanford by the Louisville Herald to report Dr. Ben L. Bruner's speech. If what he said about the weather is true, we presume his claim on the at-

## Hooley for Banana Peel "Gels-It"

Only Real Way to Get Rid of Corns.

Which do you prefer—a corn that pulls or a corn that peels? Buttery or blisters? Only "Gels-It" can get rid of your corn the peel-off way, the blessed way. You don't need a pull.

"Corns Never Trouble Me, I Use 'Gels-It'!"

Why hump yourself up on the floor and with your jaws set and eyes popping from pain, lick and gouge and cut your corns? Why irritate your toes with some salve or wrap your toes into a big painful bundle with some sticky tape or plaster? Life is too short. Use "Gels-It"—it takes a few seconds to apply and there's no fussing. Corns go. Wear new shoes if you want. Peel off the corn with your fingers—the whole thing, root and all, clear and clean, and it's gone! Only "Gels-It" can do this. Take no chances. "Gels-It" is the guaranteed, money-back, corn-remover, the only sure way, costs but a trifle at any drug store. Mfd by E. Lawrence & Co., Chicago, Ill.

Sold in Stanford and recommended as the world's best corn remedy by The Penny Drug Store.

William Cordier bought of Major Reynolds 55 acres adjoining his farm just beyond Rowland for \$3,000.

Miss Mary Bright left Saturday for Normal, Ill., to visit her relative, Mr. R. G. Bright, and family.

Stanford is justly proud that she has been called upon to furnish the vice president for Kentucky of the National War Mothers' Club, Mrs. W. K. Warner having been elected to that office. No better selection could have been made as Mrs. Warner will not only reflect credit on her town, but the State she is so capable of representing.

F. P. Hays, heretofore a county school teacher, is now "running express" between Cincinnati and Knoxville on the L. & N.

Mr. A. C. Hill came up from Louisville, where he is connected with the corporation department of the State revenue agent's office, to attend his sale of furniture. He returned Monday morning and Mrs. Hill left yesterday afternoon to make a brief visit to her sister, Mrs. Claude Penypacker, in Danville, before joining him in the Falls City. It is with much regret that our people give up this good couple.

Magic! Peel them off without pain or soreness

When you peel off corns or calluses with Freeze-one the skin beneath is left pink and healthy and never sore, tender or even irritated. Try Freeze-one sure!

### Wetproof Steel Lined Shot Shells

MAKE your showery hunting days this Fall the good days for ducks they really ought to be, with the right shotshells—Remington UMC Smokeless "Arrow" or "Nitro Club" Wetproof Steel Lined "Speed Shells." No matter how much water may get to them, they will actually stay just as dry and serviceable as your Remington UMC Pump Gun or Autoloading Shotgun.

Those finest of shoal-water fowl, the big mallards—which you can seldom get with-in gunshot of when it is calm and fair—are then not so quick to take wing. But your shells must be right. Hunting has no worse luck than a water-soaked shell that has swelled and sticks in the gun at a critical moment—to say nothing of a "miss" caused by wilting of the turned-over end of the shell.

Remington UMC Smokeless "Arrow" and "Nitro Club" Wetproof Steel Lined "Speed Shells" are made water-proof by a wonderful process, invented for them and used exclusively in their manufacture.

It took three years to perfect this process. The result is a shell that will work and shoot right throughout an

all-day downpour—keeps hard and smooth with no softening of the turned-over end or bulging of the top wad in the wettest coat pocket.

You buy the same favorite brand, at the regular price, and get the Wetproof improvement without cost. The first completely waterproof shotshell, at the same time having the uniform superiority of speed, pattern and penetration for which Remington UMC "Arrow" and "Nitro Club" Steel Lined "Speed Shells" are famous.

In black powder, buy the old reliable "New Club," now Wetproof sealed at turnover and top wad.
